## ASSEMBLY INSTRUCTIONS

1. Select a level area to operate game with plenty of room to allow for a line to form.
2. Assemble the framework, per photo.
3. Insert the (4) A pipes into (4) B pipes, creating (4) 7' lengths.
4. Slide (2) Tee Fittings onto (2) of these 7' lengths.
5. Use these (4) 7' lengths to create a square, using (2) Elbow fittings for the top corners, and (2) Four-Way fittings for the bottom corners.

Note that the (2) Tee fittings go on the sides. These Tee fittings join the front frame to the back frame.

6. Place the C pipes into the 4-way fittings at the back of the game. These create the base. (Be sure to tighten down the fittings using the small bolts on them).
7. Insert the D pipes into the ends of both Tee fittings and the ends of the Four-way fittings on the bottom of the frame.
8. Place the remaining Elbow fittings on the ends of the bottom D pipes, and insert (2) B pipes into those Tee fittings, vertically.
9. Put the remaining A and B pipes in place, atop the B pipes and attached to the top D pipes.
10. Attach canvas to the framework using the Velcro straps.
11. If using game outdoors, it is strongly suggested that you use the stakes provided on either side of the bottom supports. Use sandbags on pavement and in a breeze, use sandbags with the stakes.
